

Accreditation

Responsible Administrator: President

Southwest Tech will maintain accreditation through the Higher Learning Commission of the North Central Association of Colleges and Schools. The College will utilize one of three possible pathways for reaffirmation of accreditation: Standard, AQIP, and Open. Currently, Southwest Tech is using the Standard Pathway as its method for accrediting. In addition to institution accreditation, Southwest Tech will seek and maintain national, regional, and professional accreditations that will enhance program recognition and student credentials.

Southwest Tech pursues institutional improvements, which ensure the College meets the Criteria for Accreditation; supports effective and efficient student learning; and ensures that its services meet or exceed stakeholder expectations.
